PROFESSIONAL PROFILE

Computer Science graduate with experience in ERP systems, process automation, and enterprise application support. I combine software development, database skills, and direct collaboration with users to translate operational requirements into practical solutions. My goal is to improve organizational efficiency through systems integration, enhanced reporting, and the digitalization of administrative and commercial processes.

PROFESSIONAL EXPERIENCE

Software Developer & Support Analyst

CleverSoft S.A. 2026 - Present

- Develop and maintain web-based and desktop ERP solutions.
- Implement business logic, reports, and enhancements aligned with clients' operational requirements.
- Manage databases, access permissions, and production deployments.
- Provide Level 1 and Level 2 support, investigate incidents, and resolve tickets in accordance with service-level agreements (SLAs).

Founder & Software Developer

FURLANICH 2023 - Present

- Develop custom software and automate business processes for clients and small and medium-sized enterprises (SMEs), with a focus on streamlining tasks and workflows.
- Deliver systems tailored to each organization's requirements, from functional design through production rollout.
- Provide post-implementation support, technical guidance, and ongoing software enhancements.

IT Technician Intern

EEST No. 1 · Chivilcoy, Buenos Aires 2021

- Performed preventive and corrective maintenance on computers, LANs, servers, and cloud services.
- Developed management applications to improve administrative processes in business and educational settings.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, Entity Framework Core, REST APIs, webhooks, PHP, Laravel.
Frontend: Blazor, Tailwind CSS, React, Next.js, and TypeScript.
Data: SQL Server, T-SQL, PostgreSQL; queries, stored procedures, and functions.
Infrastructure & DevOps: Docker, Linux, Nginx, Azure, Git, GitHub Actions; continuous integration and deployment.
Software Design & Quality: OOP, SOLID, layered architecture, TDD, and end-to-end and regression testing with Playwright.
AI-Assisted Development: coding agents, context management, and execution harnesses; automated validation and human code review.

EDUCATION

Degree in Computer Science (Licenciatura)

University of Buenos Aires · Graduated · 2022 - 2025
